(FRP)

## ECOSPHERICALDOME

EcoSphericalDome is a patent pending Eco-Friendly portable resort of ePapayya. These domes will suite for the clients who are seeking for single bedroom or a double bedroom house in temporary arrangement model. The unique shape of the domes helps to withstand the adverse weather condition like cyclones, heavy winds & high temperatures as well.

The material of the construction will be F.R.P (Fiber Reinforce Plastic) which comes with a PUF Sheets layer in the middle & covered with FRP sheets again in the interior surface. The water leakproof test will be conducted at the site after installing the outer shell at clients place such that there will be no ambiguity .

All the electrical wiring & MCB arrangements along with the placement of the switch boxes will be provided before completion of the interior surface of the EcoSphericalDome .

The size of the product can be easily increased by increasing the pieces in the middle at any time of the usage.

# PICNIC TABLE

From campground to crab shack to suburban backyard, the picnic table is so ubiquitous that it is nearly invisible as a designed object. Yet this ingenious form — a structurally bolted frame that looks like an “A” and unites bench seats and table into a sturdy package — has remained largely unchanged since the 1930s. You can simply place this table in your garden area and organize picnics for the little ones or for your friends. With a table for four it also comes along with seats which saves you from buying chairs separately. Decorate the surroundings either for a perfect date or for a simple morning breakfast and enjoy the outing the nature’s way. The wood is treated to save it from spoiling during rains which means you don’t have to carry it in and out during rains and can leave it as it is without a worry in the world.

We import or manufacture **Picnic Tables** on our own so the build can be customised according to the Client’s needs to ensure maximum Quality and Comfortability

## SPECIFICATIONS

Primary Material	: Wood
Dimensions	: L5’2” x W7’1” x H2’9”

## OCTAGON PICNIC TABLE

These **Octagon Picnic Table** with Benches offers plenty of seating space for a family of eight! Octagon tables are great for conversations and intimate dining since you are facing each other. This wood picnic table is a perfect choice for your backyard gatherings and will create a cozy outdoor dining room with a larger area for dining compared to picnic table. This table is designed using quality wood under the supervision of skilled craftsmen. Prior to final dispatch, it is checked on different quality parameters by our experts to ensure its seamless finish and high strength. Known for its easy installation & maintenance, long-lasting use, elegant design and sturdy structure, this **Octagon Picnic Table** can be availed by our clients at pocket-friendly prices.

We import or manufacture **Octagon Picnic Tables** on our own and can be customised the way the client desires to ensure maximum Style and Satisfaction without compromising the overall Quality and Comfortability.
